

# rebuilt PARISH

## Weekend Observations

Our Weekend Observations are designed with one goal in mind:

**To equip your parish with tools and knowledge so that you can reach your greatest potential.**

Sometimes, you just need someone to walk your campus, sit in your pews, and see it all with fresh eyes.

**A Weekend Observation is your opportunity to invite experienced leaders from Rebuilt Parish to join you on-site - to listen, observe, and offer clear, practical insight on how to move forward.**

We'll celebrate what's working. We'll gently point out what's holding you back. And we'll help you take your next step toward becoming the kind of parish that makes disciples and welcomes the lost.

**We'll meet you where you are (*literally and figuratively*) and guide you on your parish's next best steps forward.**

*Weekend Observations: \$2,500  
plus lodging & travel expenses*

## How To Get Started: Weekend Observations

### Express Interest

Reach out to talk with a Rebuilt team member. Let us know you're ready to grow!

1.

2.

### Schedule a Weekend Observation

Work with the Partner Development team to coordinate.

### Both Teams Prepare for the Visit

Meet virtually to discuss your parish: our team will observe your Masses online & you will set up meetings with key stakeholders.

3.

4.

### Two Day On-Site Weekend Observation

Our team will observe all weekend Masses and will meet with your team and key stakeholders.

### Report Review

Both teams will review the report together and plan next steps.

5.

6.

### Implementation

Implement what your parish has learned from the observation and report.

### Transform Your Parish

Experience the results as your parish transforms and you make disciples!

7.
